

Description

Scotch-Brite™ Surface Preparation Pad Plus is a floor maintenance deep scrubbing pad made of nylon fiber in an open textured, non- woven construction. Specialized abrasive particles are bonded to the non-woven construction with a durable resin system. SPP Plus provides aggressive deep scrubbing performance while leaving a smooth surface to re-coat. Unique abrasive and construction scuffs surface to create optimal bonding of finish and conforming to uneven surfaces.

- Designed to remove soiled top layers of floor finish using water or neutral cleaner instead of harsh stripping chemicals.
- For use on standard, low speed (175 400 rpm) automatic scrubbers, rotary machines.
- Unique design reduces clogging during use.
- SPP Plus does not require the use of a backer pad.
- Exacting standards for quality mean thickness uniformity from edge to edge and pad to pad are
 exceptional, resulting in consistent performance without pad wobble or machine vibration. The
 precise center-hole placement and roundness of the pads also contributes to the smooth
 operation which extends pad life and may help reduce operator fatigue.

Application

This product is for use with neutral cleaner or water to remove layers of soiled or damaged floor finish without the slippery surface and harsh chemicals associated with standard floor strippers. For use on finish-coated flooring such as wood, sheet vinyl, vinyl tile, marble, terrazzo or concrete.

Packaging and Marking

Each carton shall be labeled to identify the contents by product name, size, quantity and manufacturer.

Pad Use and Cleaning

Dust mop entire floor prior to scrubbing. Install appropriate sized Scotch-Brite™ Surface Preparation Pad Plus on cleaning equipment. SPP Plus can be used on automatic scrubbers or rotary floor machines without a backer floor pad. Wet the floor with water or neutral cleaner and scrub the floor to desired result. Both sides of the pad can be used. When desired, pad can be flipped. Pick up dirty solution with a mop, wet vacuum, or automatic scrubber. Rinse floor and let dry prior to recoating or opening to traffic. Pads may be rinsed with water to clean if desired.

Storage

Store indoors in original packaging and under normal facility conditions.

Characteristics

Scotch-Brite™ Surface Preparation Pad Plus		Test Method
Fibre Type	Nylon	N/A
Weight (10 x 15 cm)	17 g	CCD0015
Thickness	20 mm	CCD0002
Packaging Recycled Content	50 – 100% post consumer	N/A
	recycled material	
Color	Maroon	N/A

Health and Safety

When handling any chemical products, read the manufacturers' container labels and the Safety Data Sheets (SDS) for important health, safety and environmental information. To obtain SDS sheets for 3M products go to 3M.com/SDS. When using any equipment, always follow the manufacturers' instructions for safe operation.

Product Use

Many factors beyond 3M's control and uniquely within user's knowledge and control can affect the use and performance of a 3M product in a particular application. Given the variety of factors that can affect the use and performance of a 3M product, user is solely responsible for evaluating the 3M product and determining whether it is fit for a particular purpose and suitable for user's method of application.
